RY

SUMMARY

I am an observant and adaptable individual striving to grow through diverse experiences. I thrive in collaborative environments, contributing to meaningful projects and seeking innovative solutions.

EXPERIENCE

Backend Developer Intern

Samsung R&D

📅 09/2024 - 01/1970   📍 Bengaluru

Samsung R&D is a research and development subsidiary of Samsung Electronics, focusing on innovative technologies.

- Building RESTful APIs for the Project Manager application for Samsung Seed Labs.
- Collaborating with a team of engineers to design scalable, efficient backend services for the application.
- Implementing secure API endpoints and optimizing application performance.

FullStack Developer Intern

Aroha

📅 10/2024 - 11/2024   📍 Bengaluru

Aroha is a tech company specializing in software solutions and application development.

- Created a fully interactive To-Do List application featuring task addition, editing, deletion, drag-and-drop sorting, and local storage integration.
- Enhanced understanding of cloud technologies, scalability, and security in application development.
